SUMMARY

I want to learn all that I can when it comes to software development. I can follow directions and I'm worthy of your trust. I rarely get angered or frustrated and if I do then I am not afraid to ask for help. I love the idea of teamwork and eager attitudes working together to help make everyone's experience comfortable and accomplished. I believe hard work is a complete necessity when doing any kind of work for any kind of job.

TECHNICAL SKILLS

Skill	Expertise Level	Skill	Expertise Level
